**"I chose WAAPA as it is the leading performing arts institution in Australia and boasts one of the highest number of performances every year."**

My experience here has been really great so far. My lecturers are incredibly dedicated and are willing to go the extra mile to help us understand what is being taught in class. They really make the effort to tailor their classes to the cohort's specific needs and to cater to students of all different levels so that we are all on the same page.

In my course, we constantly have people from the industry coming to speak with us and conduct workshops. I've always loved these sessions as they have been so valuable in giving me a glimpse into the industry and the challenges I might face as an artist. More importantly, through these exchanges, I get to listen and learn from the mistakes these people have made, which will help me with the challenges I am likely to face in the course of my career.
